

Can I erect my log home myself ?

Can I erect my log home myself ?

Yes!

With your log home design you receive a full set of construction plans. This includes:

- Foundation plan for the pillars,
- Beam and floor plan
- Roof plan
- Plumbing and electrical layout

- Panel list

The walls are provided in prefabricated panels that are easy to assemble. Should you wish to build the log home yourself (or use your own contractor) we supply the unit as a pre-manufactured kit, together with Materials and Tools lists, which gives you exact quantities down to the last bolt and nut, and all the tools you will need to complete the project successfully.
