

## Legal Notes

### Notes

- Log Homes reserves the right to certain changes or specification changes without prior notice, as circumstances or best practice may dictate.
- Log Homes are required to be sited correctly.
- Connection to services must be done by professional plumbers and electricians.
- Prices do not include : delivery outside the Pretoria area; architectural services or any site charges.
- Regulatory : All structures, whether brick, timber or steel, must comply to all municipal regulations and approvals. We can assist in submitting plans to municipalities for approval. Units are manufactured and assembled according to SABS specifications. However, you are responsible to ensure that your local authority will approve the erection of the structure on your site. Different Councils or local planning authorities have different regulations and applications of the same. There may be standard municipal regulations that make certain erections impossible or impractical.
- Some pictures on this website may be used for sample purposes only.
- Log Homes can not be held responsible for printing errors.
- All queries are handled to our best knowledge.
